

DONARD

A Classic Style For Today's Living

SOLID FUEL COOKING RANGE

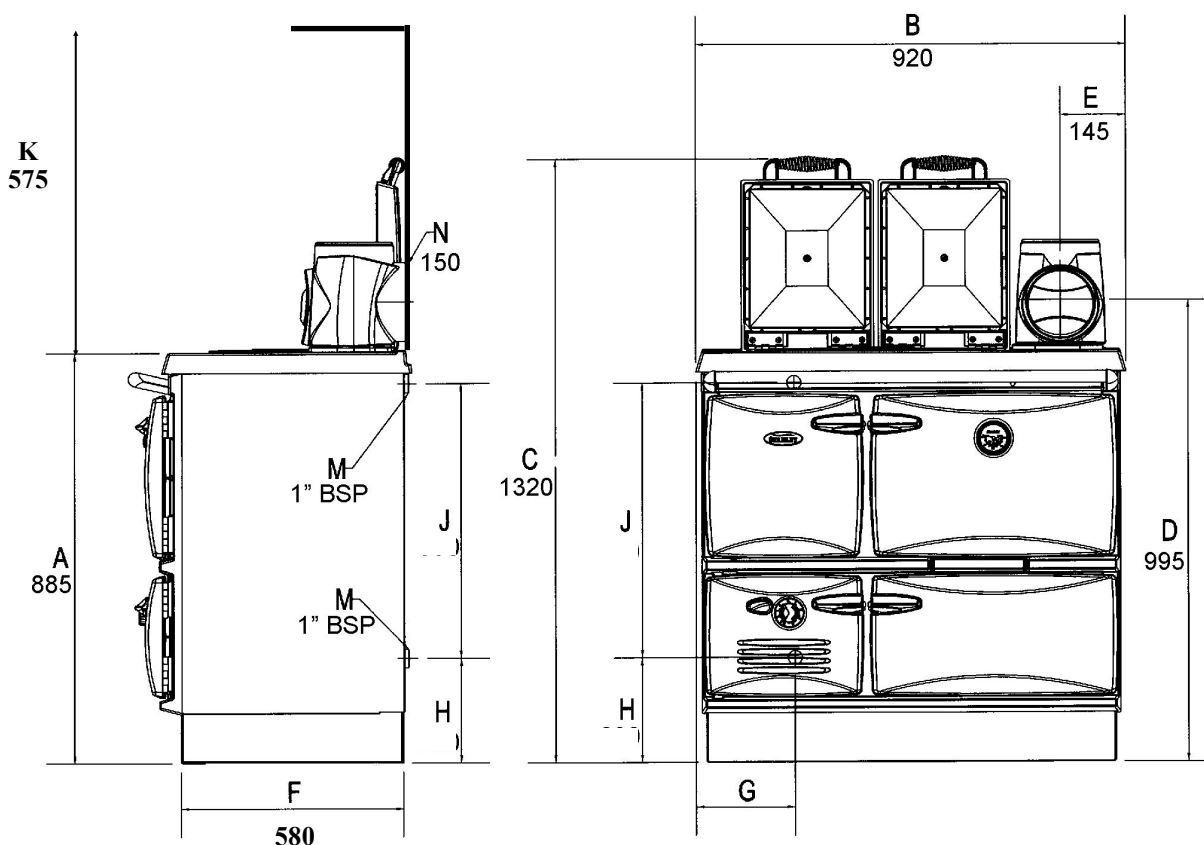

For generations Stanley's solid fuel range cookers have brought warmth to homes and hot food to families. Today, solid fuel is an increasingly popular lifestyle and economic choice for many homes. Each Stanley solid fuel model combines classic good looks with durability and efficiency, and can run on a range of solid fuels, including seasoned wood and coal. With three models to choose from, and heating, hot water and cooking options available, Stanley range cookers are in harmony with today's busy lifestyle. We are pleased to introduce the new modern bevelled shape doors to the classic Donard range cooker.

Dimensions	A	B	C	D	E	F	G	H	J	K	M	N
DHW model	885	920	1320	1000	145	580	115	435	660	575	1\"BSP	150
HOB model	885	920	1320	1000	145	580	195	230	820	575	1\"BSP	150

DHW Model: equipped with stainless steel domestic hot water wetback designed to connect to a 180-270 litre hot water cylinder. Choice of two size wetback booster sizes.

HOB Model: equipped with steel boiler with capacity to service a central heating system when installed in conjunction with an indirect 180-270 litre hot water cylinder.

Summer Use: Both models come standard with hotplate heat conservators. The HOB model comes complete with "summer grate" to reduce the size of the firebox when central heating is not required.

INSTALLATION: Must be as per AS/NZS2918:2001. Contact Broadys NZ Ltd or your local dealer for full installation instructions and requirements. The Stanley Donard requires an approved 150mm diameter flue system to be connected to either the top or rear of the cooker. AS
